NOTES

1. Summary - Open Non-Financial Accounts by Industry Group and Summary - Open Financial Accounts by Account Type Past Due Amount percentages may not equal 100% due to rounding and/or how the Creditor applies credits.
2. When summing the aging buckets in the Summary and Credit Experiences tables the sum may not equal the Past Due Amount because some Creditors apply credits only to the Past Due category and not the aging buckets.
3. Charged-off accounts in the Closed Summary tables return the balance at the time of charge off. This amount may not be the actual charged-off amount because only a portion of this balance may be charged off or credits, late fees, and penalties may have not yet been applied. The Charged Off Amount in the Report Highlights section is what the Creditor has reported as charged off at the time of inquiry.
4. Past due item(s) may be the result of lost or disputed invoices.
